Hi Robert

That's fine. I always tell perspective parties to call Steve Wright as he is the manager and it is still in their control.

Hey Mike, here is a possible response. Want to add or change anything?

Dear Deneen,

Thank you for your inquiry.

As you may know, Calbag purchased the Aluminum Plant Infrastructure from the Columbia Falls Aluminum Company last year and demolition work has begun on site. This work is separate from the work that EPA is conducting at the site.

I hope this helps. Please let me know if you have further questions.

Following up per Cynthia Peterson's email. We are interested in bidding the demolition for the project when the time comes. If you could give us more information, it would be appreciated.
Thanks!

Good afternoon,

I am no longer the community involvement coordinator for the Columbia Falls site. I am copying the new CIC, Robert Moler, as well as Mike Cirian, the Remedial Project Manager, on this email. I suggest that you follow up with them on your request.

Best regards,
Cynthia Peterson

Subject: Columbia Falls Aluminum Smelter Superfund Site Reclamation/Remediation

Good Morning,

I would like to take the opportunity to introduce our company, Independence Demolition (ID), a Division of Independence Excavating, Inc. Our Demolition Team travels throughout the US with our head office in Cleveland, offices in Pittsburgh, Denver, Orlando and Chantilly, VA. ID owns and operates an extensive fleet of heavy equipment. Our diverse, turn-key capabilities, allow us to manage varying site conditions and execute multiple associated services saving both time and money. Our EMR has averaged less than .5 over the last 5 years. Our company is honored to have been nationally recognized by the Associated General Contractors receiving their Construction Safety Excellence Award in the Federal and Heavy division for working 1,000,000 man hours safely and without incident for multiple years.

We are reaching out to express our interest in bidding the demolition scope for the Columbia Falls Aluminum Smelter Superfund Site Reclamation/Remediation project, and ask to be included on future demolition bids as well. Would you be the contact that we can obtain the demolition bidding documents, or to be put on the bidders list if they have not been released yet? If you require your contractors to be prequalified, please send me your packet or link. You can also contact our Vice President of Demolition, Don DiGeronimo directly at 216-401-1999.

I have included some brief information about us below, but please take time to visit our website www.independencedemolition.com. This will provide you with a more extensive overview of our capabilities and a glimpse at some of our projects.

The following list is a sampling of the Owners and projects we have had the opportunity to work for and be a part of the construction team. We would be happy to provide project specific references upon your request.

Industrial: Mittal Steel, Allegheny Ludlum, ISG, Charter Steel, Ellwood Steel, CB&I, URS, PIKA
Commercial: CSX, NASA,
Power Plants: First Energy, AEP, Black Hills Power, Reliant Energy, Zion Nuclear, DTE

Automotive: Ford, GM, Honda

Medical: Cleveland Med Mart & Convention Center, Cleveland Clinic, University Hospitals

Entertainment/ Sports Arena: First Energy Browns Stadium, Progressive Field Indians Stadium, Orlando
Citrus Bowl, Richfield Coliseum

US DOT: Innerbelt Bridge Project, Ohio River Bridge, Squirrel Hill Tunnel, Germantown Bridge

Environmental: Our sister company, Precision Environmental has completed multiple abatement
projects with us, and a variety of environmental and decommissioning projects.

Thank you for your consideration and we look forward to working with you in the future.

Deneen Reynard
